

Protect your family and belongings!

The security bar is an inexpensive and immediate way to secure protection for your loved ones.

Secures inside the main entrance of the house or the auxiliary gates and bedrooms doors.

For more information and detailed instructions on how to install the security bar visit the official website of our company:
www.powerbar.gr

SECURITY BAR
WITH DOUBLE TRAVERSE LOCKING

The security bar is suitable for all doors (main entrance, auxiliary).

Secures internal and while you're at your site, making it impossible to access from any intruder.

The placement is on horizontal / vertical wall or in the frame

Plug and in a glass door with lock to use.

SECURITY BAR
WITH DOUBLE TRAVERSE LOCKING

The ultimate protection!

The security bar is suitable for:

- SAFETY DOORS
- ALUMINUM DOORS
- WOODEN DOORS
- IRON DOORS

It secures the door from the inside.

*(The door remains closed in case someone tries to break in).
It is the only unbreakable bar.*

Opening the door, the bar remains constant!
